- Continuous refinement of author branding assets.
- Optimization of Author Central and platform visuals for consistency.
- A+ Content Creation.

Expected Outcome: Strong first impressions, improved reader engagement, higher click-through rates, and increased book visibility and sales potential.

3. Test Marketing (12 Months)

- Identification of target audience based on market research.
- Selection of test readers matching ideal buyer profiles.

- Book sharing for structured reading feedback.
- Focus group discussions to evaluate emotional and intellectual response.
- Analysis of strengths, weaknesses, and improvement areas.
- Pricing evaluation based on perceived reader value.

Expected Outcome: Better audience targeting, improved book quality and positioning, optimized pricing strategy, and increased chances of stronger market performance.

4. Social Media Presence and Credibility (12 Months)

Establish and strengthen your author brand across major social media platforms through profile optimization and audience engagement.

- Creation and optimization of social media profiles.
- Consistent author branding across platforms.
- Professional profile setup and credibility enhancement.
- Audience-building strategies.
- Integration with your books, website, and author platforms.

Expected Outcome: Stronger author credibility, increased audience trust, improved online visibility, and a solid foundation for long-term marketing success.

Suppose we are targeting 2,000,000 people from our dedicated ad campaign using a budget of \$1000, and let's assume only 1% of them engage with the advert [**the number will be higher - but this is just to give you an idea**], it would give us 20,000 engagements.

And let's say only 1% (the number will be higher but this is to give you an idea) of those 20,000 engagements go on to buy the book, which would give us 200 buyers.

And hypothetically if the book is priced at \$10, this would give us a revenue of \$2000.

5. News Featured Publications, Guest Posts, and PR Campaigns (12 Months)

Strategic media exposure through articles, guest posts, press releases, and publicity campaigns to increase visibility and authority.

- Press release creation and distribution.
- Guest post opportunities on relevant websites and blogs.
- Media and publication outreach.
- Author feature articles and interviews.
- Brand awareness and reputation-building campaigns.
- Press Releases on more than 500 news channels including Fox News and NY Times.

Expected Outcome: Increased credibility, enhanced online presence, wider audience reach, and greater opportunities for book discovery and sales.

This is also one of our most successful funnels and gets us the most organic results. Let's assume you pay \$5000 to have a dedicated article published in Forbes or NY Times, and out of the average 10,000,000 daily visitors, only 1% of them engage with the article and go on the follow-through link, which would give us 100,000 visitors.

And even if only 1% of them proceed to buy, that would give us 1000 buyers. And if the book is priced at \$10, that would equal \$10,000.

6. Social Media Marketing and Management (12 Months)
